725 foster children became part of lifelong families through adoption.

We complete more adoptions from foster care than any other private agency in California with over 7,500 adoptions finalized and a goal of 750 next year.

52% of these foster children were placed in the care of relatives.

Foster children who are able to remain within the safety net of their extended family experience reduced trauma and are assured a greater opportunity to thrive.

1,211 kinship families received additional support through our Kinship Support Services Program.

Offering this service to six counties allows us to make a meaningful difference in the lives of vulnerable children, helping keep them out of foster care and safely connected to relatives.

387 individual lives were enhanced through post-adoption supportive services.

Our post-adoption programs provide services in nine counties and 90% of families served say they feel they are in a better place because of the wide array of supports they received from Lilliput.

133 individuals were supported through Lilliput’s family therapy services.

We provide improved therapeutic supports for families formed through kinship care and adoption with our evidence-informed therapists are who are working to train and build a stronger network of providers in several communities.

Our Mission:
Lilliput exists to ensure every child has the opportunity to be part of a safe, nurturing, lifelong family.
